Our Strengths

Over its long existence of over two decades, Your Company has gained rich experience and developed core expertise in serving the large and medium corporate customers. Your Company has channelized financial assistance across all major sectors of economy and built a well-diversified portfolio in infrastructure, real estate, manufacturing, services, and NBFC sectors.

Experienced, highly motivated and dedicated management team

We have an experienced, highly motivated and dedicated senior management team, with significant experience in the banking, financial services, consultancy and infrastructure sectors. Our new and dynamic senior management team has already implemented a number of changes in the Company for steady growth of the business. One of the changes was to diversify our lending focus to become sector agnostic and lend with a focus on good quality collateral asset.

Our employee-friendly and inclusive policies, health and fitness benefits ensure safe and secured environment for employees at workplace.

Our Strategies

Focus on Emerging Corporate / SME segment borrower category:

Emerging corporates and SME players add to the growth story of India. As part of Portfolio diversification strategy, your company intends to lend to this segment which is fast growing and provides a healthy Portfolio on Company's balance sheet. Your Company's management has decade long experience in financial services and understands this segment to lend judiciously.

RISK MANAGEMENT

In view of the growing volatility in the operating environment impacting global businesses on an unprecedented scale, we are reinforcing the risk management and mitigation mechanism. It will be regularly reviewed by the Board and corrective actions will be implemented with diligence.

Risk management process

The risk management system includes the following key elements:

A strategy that is driven by objectives and principles.

1. Clearly defined assignment of responsibilities across hierarchies.
2. A framework and reporting cycle to identify, assess, manage, monitor and report the risks that the Company is or may be exposed to.
3. A combination of 'top down' and 'bottom up' approach to risk assessment and management process.
4. A risk monitoring plan that outlines the review, challenge and oversight activities.
5. Reporting procedures which ensure risk information is actively monitored, managed and appropriately communicated at all levels within the Company.
6. Embedding a robust and resilient risk-management culture across all hierarchies of the Company.

Developing risk appetite statements with the strategic planning process subsequently monitoring and reporting on these statements

The risk management framework is based on a meticulous assessment of risks through proper analysis and understanding of the underlying risks before undertaking any transactions and changing or implementing processes and systems. This risk management mechanism is supported by regular review, control, self-assessments and monitoring of key risk indicators.

POSSIBLE THREATS

Our Industry has faced certain challenges in the period under review, related to Liquidity and defaults by Large Companies, therefore there may be significant roadblocks to the growth of the Company in shorter term. Even the fall in Interest rates have not boosted the Liquidity for NBFCs, and there has been instances of Rating downgrades of NBFC and certain Housing Finance Companies, of which Reliance Home Finance is the recent example. Changes in interest rates are expected to have significant impact on the Company's business and operations. Finance costs are dependent on various external factors, including Indian and global credit markets and, in particular, interest rate movements and adequate liquidity in the debt markets. Changes in RBI repo rates could affect the interest charged on interest-earning assets and the interest rates paid on interest-bearing liabilities. Adverse conditions in the global and Indian economy resulting from economic dislocations or liquidity disruptions may adversely affect availability of credit, and decreased liquidity may lead to an increase in interest rates. Despite recent push by the RBI, the resolution of stressed assets in the system is likely to take more time. Also, the effect of various loan waivers on credit culture in the rural areas is still to be seen. Your Company acknowledges these possible negative factors and has a plan to mitigate them through its deep domain knowledge, strong risk framework and an efficient collection mechanism under the stewardship of the management team.

CAUTIONARY STATEMENT

Certain statements in the Management Discussion and Analysis describing the Company's objectives, predictions may be "forward-looking statements" within the meaning of applicable laws and regulations. Actual results may vary significantly from the forward-looking statements contained in this document due to various risks and uncertainties. These risks and uncertainties include the effect of economic and political conditions in India, volatility in interest rates, new regulations and Government policies that may impact the Company's business as well as its ability to implement the strategy. The Company does not undertake to update these statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of Stellar Capital Services Limited

Report on the Standalone financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Stellar Capital Services Limited (“the Company”) which comprises the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and losses, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Standalone Ind AS financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management Responsibility for the Standalone Ind AS financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Ind AS financial Statement

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the Internal Financial Control with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) In our opinion the managerial remuneration for the year ended March 31, 2023 has been paid/provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- (i) the Company has disclosed the impact of pending litigations as at March 31, 2023 on its financial position in its standalone financial statements - Refer Note 29 to the standalone financial statements.
- (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- (iv) a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in notes to accounts, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ('Intermediaries') with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

b) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ('Funding Parties') with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our attention that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11 (e) as provided under (a) and (b) above, contain any material misstatement.

Annexure -B to the Independent Auditor's Report of even date on the Standalone Ind AS financial statements of Stellar Capital Services Limited**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013**

We have audited the internal financial controls over financial reporting of **Stellar Capital Services Limited** ('the company') as of March 31, 2023 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting of the company.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and

3. provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

COMPANY OVERVIEW AND SIGNIFICANT ACCOUNTING POLICIES

1 Company Overview

Stellar Capital Services Limited is a company incorporated on 20th day of October, 1994. It is registered with Registrar of Companies, Delhi. The company is primarily engaged in the business of Non-Banking Finance Company in India.

2 Significant Accounting Policies

2.01 Basis of Preparation

The financial statements have been prepared in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter, prescribed under Section 133 of the Companies Act, 2013 ("Ind AS").

2.02 Overall Consideration

These financial statements have been prepared on going concern basis using the significant accounting policies and measurement basis summarised below: These accounting policies have been used throughout all periods presented in financial statements.

2.03 Basis of Measurement

The financial statements are prepared on Historical Cost basis except financial assets and liabilities that are measured at fair value (Refer accounting policy regarding Financial Instruments). The accounting policies not specifically referred to otherwise, are consistent and in consonance with generally accepted accounting principles. All income and expenditure are being accounted for on accrual basis.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2.04 Functional and Presentation Currency

These financial statements are represented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded to the nearest lakhs (upto two decimals), except as stated otherwise.

2.05 Use of Estimates

In preparing Company's financial statements in conformity with Ind AS, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Estimates and underlying assumption are renewed at each balance sheet date. Any revision to accounting estimates is recognized in the period in which the same is determined.

2.06 Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the related disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions
 The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The Company based its assumptions and estimates on parameters available when these financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions as and when they occur.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

(i) Estimation of defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future.

These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(ii) Estimation of current tax and deferred tax

Management judgment is required for the calculation of provision for income-taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to adjustment to the amounts reported in these financial statements.

(iii) Useful lives of depreciable/amortizable assets

Management reviews its estimate of the useful lives of depreciable/amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain property, plant and equipment.

(iv) Impairment of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(v) Fair value measurement

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(vi) Evaluation of indicators for impairment of assets
The evaluation of applicability of indicators of impairment of assets is based on assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

2.07 Current and Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period;
- or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- Current assets include current portion of non-current of financial assets. All other assets are classified as non-current.

A liability is current when it is

- Expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- Due to be settled within twelve months after the reporting period;
- or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.
- Current Liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.08 Property Plant & Equipment

i) Initial Recognition and Measurement

An item of property, plant and equipment is recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Items of Property, Plant and Equipment are measured at cost less accumulated depreciation/amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes & duties, to the location and condition necessary for it to be capable of operating in the manner intended by management. When parts of an item of property, plant and equipment have different useful life, they are recognized separately. Items of spare parts, stand-by equipment and servicing equipment which meet the definition of Property, Plant and Equipment are capitalized. Property, Plant and Equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as 'Capital Work-In-Progress'.

ii) Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

ii) Subsequent costs (Cont...)

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefit embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The cost of the day-to-day servicing of Property, Plant and Equipment are recognized in profit or loss as incurred.

iii) De-recognition

Property, Plant and Equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

iv) Depreciation/amortization

Depreciation is recognized in profit or loss on a written down value over the estimated useful life of each item of Property, Plant and Equipment.

Depreciation on addition to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Depreciation on property, plant and equipment is provided on their estimated useful life as prescribed by Schedule II of The Companies Act, 2013 as follows:

- 1) Buildings 30 years
- 2) Plant & Machinery 15 years
- 3) Furniture & Fixtures 10 years
- 4) Vehicles 08 years
- 5) Office Equipments 05 years
- 6) Electrical Installation 10 years
- 7) Computer 03 years
- 8) Leasehold Improvements Over the period of lease

The residual value, useful life and methods of PPE are reviewed at each financial year end and adjusted prospectively.

2.09 Other Intangible Assets

i) Initial Recognition and Measurement

An intangible asset is recognized if and only if it is probable that the expected future economic benefits that are attributable to the asset will flow to the company and the cost of the asset can be measured reliably.

Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost less accumulated amortization and accumulated impairment losses, if any. Cost includes any directly attributable incidental expenses necessary to make the assets ready for its intended use.

ii) Subsequent Costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

iii) De-Recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gain and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

iv) Amortization

Intangible assets having definite life are amortized on straight line method in their useful life.

2.10 Impairment of Property, Plant and Equipment, Other Intangible Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Company of assets (cash generating units). If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

2.11 Inventories

Inventories in Shares & stocks are valued at Fair Value Market.

2.12 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and cash in hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

2.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Financial Assets:
Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

a) Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

b) Subsequent Measurement

Financial assets are subsequently classified and measured at:

- Financial assets at amortised cost
- Financial assets at fair value through profit and loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVTOCI).

c) Equity Instruments:

All investments in equity instruments in entities other than subsidiaries and joint ventures are measured at fair value. Equity instruments if held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify them either at FVTOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instruments, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment as the company transfers cumulative gain or loss within the equity.

Equity instruments if classified as FVTPL category are measured at fair value with all changes recognized in the profit and loss.

d) De-Recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The contractual rights to receive cash flows from the asset have expired, or
- The Company has transferred its contractual rights to receive cash flows from the asset.

e) Impairment of Financial Asset

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the advances do not have assets or sources of income that could generate sufficient cash flow to repay the amounts subject to the write-off. However, financial assets that are written-off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in standalone statement of profit and loss.

ii) Financial Liabilities

a) Initial Recognition and Measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

b) Subsequent Measurement

Financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any discount or premium on acquisition and any material transaction that are any integral part of the EIR. Trade and other payables maturing within one year from the balance sheet date are carried at transaction value and the carrying amounts approximate fair value due to the short maturity of these instruments. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

c) De-Recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

2.14 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

2.15 Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either: • In the principal market for the asset or liability, or • In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

2.16 Impairment of Financial Assets

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a company of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets. In accordance with Ind-AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets carried at amortised cost. ECL is the weighted average of difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the company expects to receive, discounted at the original effective interest rate, with her respective risks of default occurring as the weights. When estimating the cash flows, the company is required to consider – All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets. – Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

2.17 Provisions, Contingent Liabilities and Contingent Assets

Provision are measured at the Present value of the management's best estimate (these estimated are reviewed at each reporting date and adjusted to reflect the current best estimate) of the expenditure required to settle the present obligation at the end of reporting period. Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources.

Contingent liabilities are disclosed only when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which is not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or estimate of the amount cannot be measured reliably. No contingent asset is recognized but disclosed by way of notes to accounts only when its recognition is virtually certain.

2.18 Revenue Recognition

The Company has applied Ind AS 115 – „Revenue from Contracts with Customers“. Pursuant to adoption of Ind AS 115, revenue from contracts with customers are recognized when the control over the goods or services promised in the contract are transferred to the customer. The amount of revenue recognized depicts the transfer of promised goods and services to customers for an amount that reflects the consideration to which the Company is entitled to in exchange for the goods or services.

(i) Interest Income: The Company recognises interest income using Effective Interest Rate (EIR) on all financial assets subsequently measured at amortised cost. EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/recei

pts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.

(ii) Dividend: Dividend income from investments is recognised when the shareholders' right to receive payment has been established which is generally when the shareholders approve the dividend.

(iii) Other income: In respect of other heads of income in the Company's accounts the incomes shall be recognized on accrual basis.

2.19 Income Taxes

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to any business combination or to an item which is recognised directly in equity or in other comprehensive income.

a) Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date. Current income tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where

b) Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable company Group and the same taxation authority.

c) Minimum Alternate Tax (MAT)

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset.

The company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

2.20 Employee Benefits

i) Short Term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under performance-related pay if the Company has a present, legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

ii) Post-Employment benefits

Employee benefits that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). Company has identified two types of post employment benefits:

a) Defined Contribution Plans

Defined contribution plans are those plans in which the company pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance are Defined Contribution Plans in which company pays a fixed contribution and will have no further obligation beyond the monthly contributions and are recognised as an expenses in Statement of Profit & Loss.

b) Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in „Employee Benefits Expense“ in the Statement of Profit and Loss.

Re-measurement

gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in Other Comprehensive Income. These are included in „Retained Earnings“ in the Statement of Changes in Equity.

2.21 Borrowing Cost

Borrowing cost include interest calculated using the effective interest method, amortization of ancillary costs and other costs the company incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed due to, other than temporary, interruption. All other borrowing costs are charged to the statement of profit and loss as incurred.

2.22 Earning Per Share

Basic Earnings Per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, net profit after tax during the year and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

2.23 Statement of Cash Flows

Statement of cash flows is prepared in accordance with the Indirect method prescribed in Ind AS-7, 'Statement of Cash Flows'.

2.24 Standards that became effective during the year

There are no new Standards that became effective during the year. Amendments that became effective during the year did not have any material effect.
